

RIMS-CRMP Prep Workshop Outline

Course Objectives

Participants will walk away with the ability to:

- Understand the five competency domains of RIMS-CRMP
- Apply the five competency domains of RIMS-CRMP
- Become a better risk professional
- Understand the components of the RIMS-CRMP certification
- Start an action plan to obtain the certification

Topics

- ✓ Domain 1: Analyzing the Business Model
- ✓ Domain 2: Designing Organizational Risk Strategies
- ✓ Domain 3: Implementing Risk Process
- ✓ Domain 4: Developing Organizational Risk Competency
- ✓ Domain 5: Supporting Decision Making
- ✓ Exam Preparation

Exercises

Participants engage in activities and interactions designed to reinforce course concepts. RIMS professional instructional designers construct the activities so that the attendees learn from each other as well as from the experienced facilitators. Examples of exercises include:

- ✓ Group discussion on the analysis of operations including what management wants and rewards
- ✓ Group discussion on how to define success measures and aligning risk strategy with organizational goals
- ✓ Group work on identifying examples of KPIs and KRIs and their connection to organizational objectives
- ✓ Exercise on how to identify techniques of risk analysis applicable to the case study
- ✓ 25 sample test questions
- ✓ Group exercise to identify and apply risk solutions to the case study
- ✓ Group exercise to identify ways to engage an organization's risk network using case studies
